MANDY BREAKS TRAINING RECORD

Mandy the record-breaking hero rat

June, 2014

Mandy, the African Giant Pouched rat, is making history as one of the fastest hero rats to complete her training.

Hero rats have an important job to do sniffing out landmines so they can be removed and

not harm the people who live near them. Hero rats are light so they don't set the mines off when they stand on them and they can smell the explosives buried deep in the ground. They dig to show the people where the mines are and get rewarded with a treat.

A hero rat's training usually takes a year, but Mandy has passed in just 8 months!

WHAT DOES THE RSPCA THINK ABOUT ANIMALS?

Humans have responsibilities towards all animals

The needs of animals, whether pets, wild animals or farm animals, should always be met

All animals have feelings, emotions and can feel pain

Animals are intelligent and can think for themselves

All animals in experiments (including space travel) that cause pain, suffering or distress, should be replaced by humane alternatives

HOW WOULD ARCHIE AND MANDY'S WORK BE NEGATIVELY AFFECTED IF THEIR NEEDS WERE NOT MET?

Mandy

If I am stressed, I get
red staining around my eyes

I need to work in the morning or
evening when it is not too hot

I need to gnaw lots otherwise my
teeth will get too long

Archie

I am a sociable
animal and get lonely or
bored if I don't have company

I pant to keep myself cool and
overheat in hot cars as I can't cool
myself down
