### Waterfowl

Feeding bread to ducks and swans is common, but not always healthy.

a) What problems can bread cause for waterfowl?

---

---

---

---

b) What problems can leftover bread cause in the environment?

---

---

---

---

c) Better food choices (circle all that apply):

Oats / Lettuce / Sweetcorn / Chips / Birdseed / Chocolate

# Feed wildlife

## Community action challenge

Choose **ONE** activity to complete and fill in the card:

### Option A: Lead by example

*Take healthier food to a local waterfowl area and offer families the opportunity to feed the birds with these better alternatives. Note: If you are under 18, ask a responsible adult to join you with this activity.*

The responsible adult helping me is:

Where I will do this:

Who I might talk to while doing this:

What I hope people learn:

# Feed wildlife

## Community action challenge

### Option B: Support local wildlife

*Encourage a neighbour, or someone you know, to put out food and water for hedgehogs when it is needed most.*

Who I will speak to:

How I will explain it to them:

What I hope they will learn:
