Who      lives      here?

Let's meet Kenny

Water

creatures have feelings

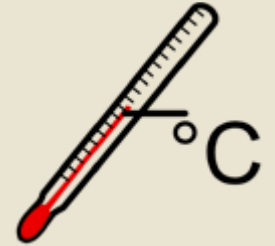

Humans can make life difficult:

plastic pollution

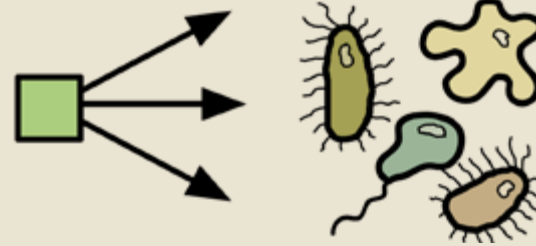

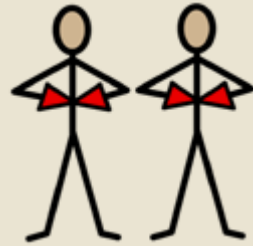

Humans can make life difficult:

global warming

We can spread diseases

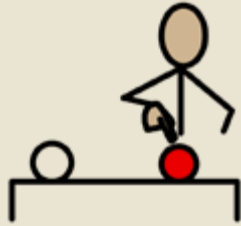

Back to Kenny

This is how we live in captivity

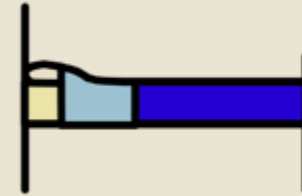

A warm

dry

bed

Safety

from

danger

Nutritious food and water

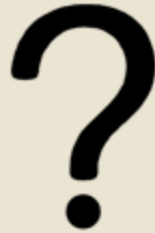

We need to play too

What does the RSPCA think?

Although aquatic animals may look different to animals living on land, they can still feel emotions we are familiar with.

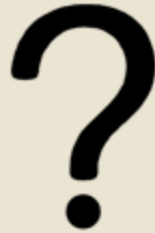

What does the RSPCA think?

They deserve to be treated with respect by humans, in the wild and in captivity.

What does the RSPCA think?

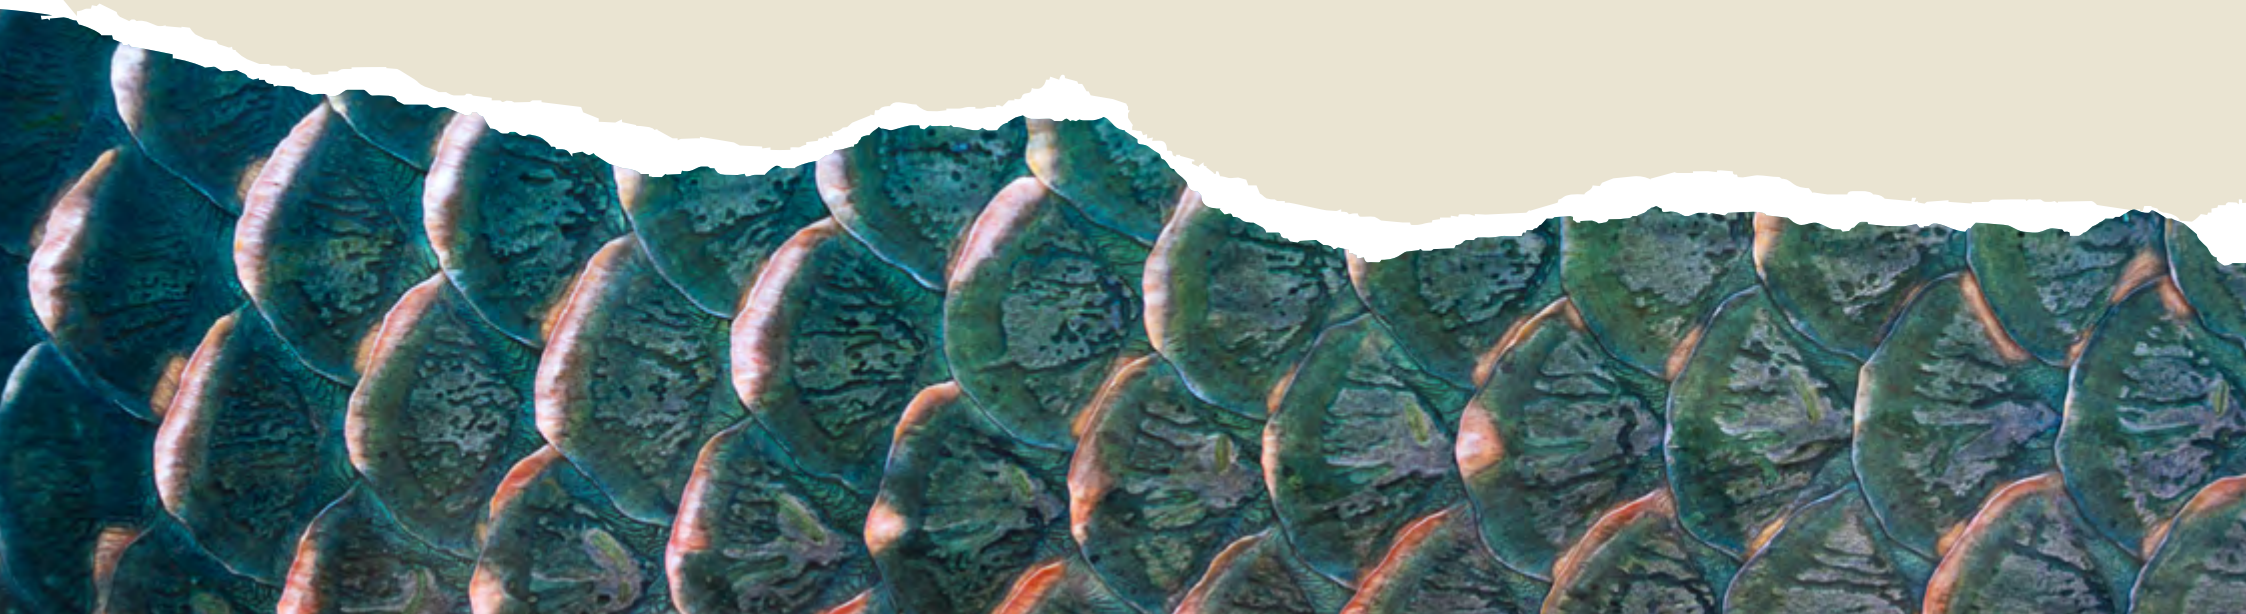

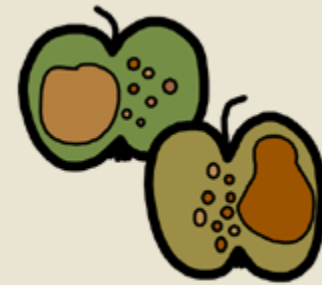

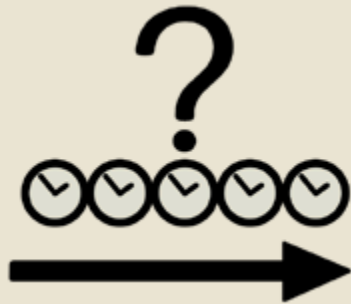

Humans must be careful not to harm aquatic animals' natural environment.

Let's play a game

How long does it take to decompose?

## Sweet wrappers

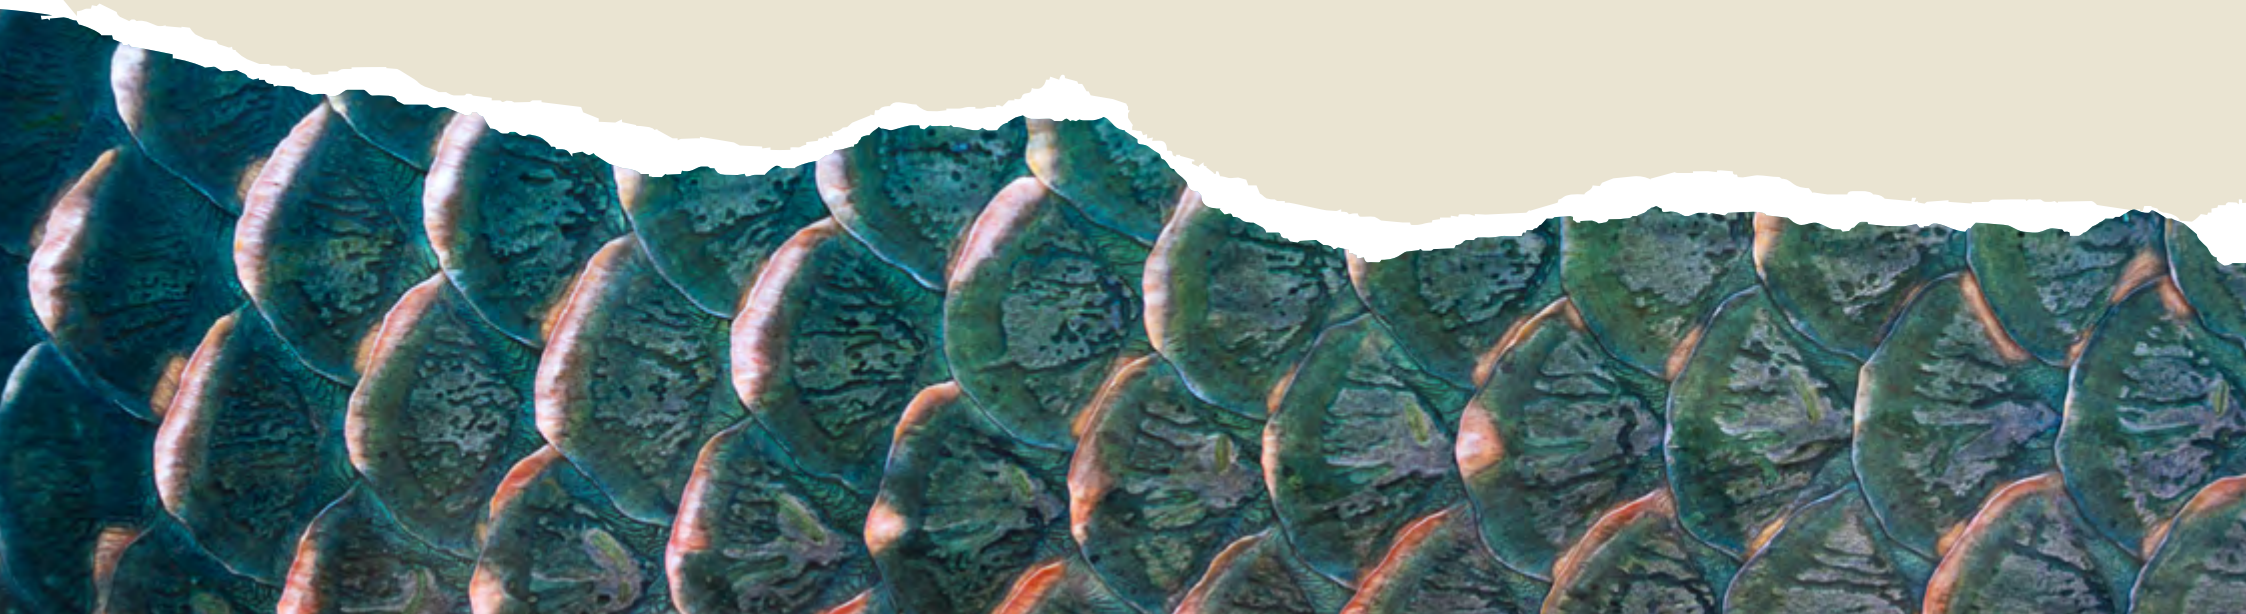

1

—

3 months

Plastic bags

10 – 20

years

Shoes

60

years

Drinks can

Plastic straw

## Plastic bottles and cups

200 – 500

years
